Support Our Mission

## Our Mission

Motivated by God's love, we partner with our neighbors in need, equip volunteers, respond to disasters and strengthen communities to inspire greater hope in our world.

# A Letter From Leadership

In response to a year of global chaos and upheaval, Dictionary.com accurately landed on **unprecedented** as the word of the year for 2020. This was the only term to accurately reflect the events of a year that no one could have foreseen. People around the world faced incredibly arduous and unforeseen hurdles in health, wellbeing and meeting basic needs.

HOPE *worldwide* responded in unprecedented ways to the debilitating circumstances of our brothers and sisters and communities worldwide.

When the world shut down, HOPE *worldwide* reached out with love, compassion and meaningful assistance. Financial upheaval hit especially hard for marginalized populations and the materially poor whom we serve. Our global program directors, volunteers and community partners sprang into action, focusing first on the distribution of desperately needed food and medical supplies. Through special events like SINGHOPE, our live-streamed concert produced by our youth volunteers, corporate donors, our church members and partners around the world donated enough funds to feed over 50,000 people. Partnering with nonprofit organizations and corporations in Europe and Asia, we secured grants to supply food, medicines and equipment. God's love and generosity provided comfort and service to over 250 churches in 78 countries, benefitting church members, their families and local communities.

The pressing needs of the pandemic did not distract us from our intent to inspire people in an unprecedented way to meaningfully and sustainably serve those in need. The principle of reciprocal service has been transformational this year, both for our volunteers and for those we serve—and it will continue as we extend a 'hand up' and not just a 'handout.' More and more HOPE *worldwide* programs are increasingly sustainable and revenue-generating with the help of grants from multiple corporate partners. God has allowed our staff around the world to multiply gifts. Every dollar donated by our fellowship is leveraged with sustainable revenue-generating programs, and medical supply grants from both government and private corporations equal to ten times the amount. We remain committed to love those in need and work together with local communities to inspire greater hope. To that end, we are developing our Youth Initiatives to inspire, encourage and train the next generation to carry on the work of HOPE *worldwide*.

Our vision and future for our organization is very exciting. This year we announced that our headquarters will relocate to Atlanta, GA, in 2022. We're very excited to build a presence in Atlanta with our partners and staff to continue our faithful vision and commitment to support our global family.

We are confident God will continue to work through us to accomplish his will in unprecedented ways.

With much thanks and love,

A handwritten signature in black ink that reads "Benjamin U. Barnett Jr.".

**Dave Malutinok**

Executive Leadership,  
HOPE *worldwide*

“ Looking at his disciples, Jesus said:  
‘Blessed are you who are poor, for  
yours is the kingdom of God. Blessed  
are you who hunger now, for you will  
be satisfied. Blessed are you who  
weep now, for you will laugh.’ ”

– Luke 6:20-21 (NIV)

HOPE *worldwide*

# VOLUNTEER CORPS

**Spanning the globe with 28 different programs, HOPE *worldwide* Volunteer Corps mobilizes volunteers to care for the most vulnerable among us. We focus on high-impact, sustainable programs that provide a variety of services from rehabilitation in disaster-stricken communities to medical services and healthcare training, vocational training and social services, sustainable agriculture and community and leadership development. Our volunteers are incredibly diverse: they hail from all continents and socioeconomic strata, and range in age from teens to retirees. Our volunteers frequently return to the same sites multiple times, believing we receive as much as we give.**

Local HOPE *worldwide* entities benefit from programs that educate people in the coordination of global service teams. As such, college students train as Global Service Interns (GSI) to run Volunteer Corps. We have had over 70 graduates of this training program. Part of our mission is to inspire volunteers not just to make service a once-in-a-lifetime experience, but to instill a

love for it that transforms them into lifelong advocates for the materially poor.

**Sadly, due to the pandemic, we had to cancel all of our Volunteer Corps in 2020.** We did, however, continue to witness the lasting impact of our programs. Here is an inspiring story:

In 2016 HOPE *worldwide* sent a Singles Corps to Sri Lanka over the Christmas holidays. One of the local disciples in the Colombo, Sri Lanka, church was a young physiotherapist named Ranjani. She was inspired by the volunteers. She dreamed of joining the Medical Corps going to Cambodia the following August.

Sadly, she could not afford the fee and plane ticket. The Singles Corps volunteers decided to sponsor her trip, and Ranjani went to Cambodia. She served for two weeks, and after the trip, she decided to move to Cambodia. Ranjani now works as a physiotherapist at the Sonja Kill Hospital alongside Dr. Cornelia Haener. She is living out her dreams.

Now that we are able to offer scholarships to volunteers from all over the world, students and young professionals from majority-world countries are also able to participate on Volunteer Corps. Some of them, just like Ranjani, will be incredible assets to our programs.

# U.S. PROGRAMS

**HOPE *worldwide* U.S. operates volunteer-led Chapters in over 110 cities throughout the United States. Volunteer Community Engagement Coordinators work with volunteers who support and engage with their neighbors who experience material poverty, homelessness or have other needs in their local communities.**

U.S. Programs staff provide training, support and resources to thousands of volunteers across the U.S. in how to engage with community members in ways that are respectful, mutual, strength-based and honoring of their dignity. This involves seeking to build mutually beneficial relationships with neighbors which allow all parties to learn from each other, identifying ways to “do with” rather than “do for” and following the

lead of community members and community leaders.

Despite the challenges brought by the COVID-19 pandemic, volunteers across the U.S. continued to facilitate multiple HOPE *worldwide* Saturday Spark Academies online, providing mentoring, homework help and trauma-informed, healing arts activities to elementary and middle-school-aged children. Volunteers also launched online and socially-distanced, in-person English Conversation Clubs, providing opportunities for neighbors who are refugees, asylum seekers or immigrants to practice their English skills and build friendships with their new neighbors.

HOPE *worldwide* Chapters also stepped in to provide material support to local communities in

greater ways in 2020 by facilitating several dozen school supply, food and toy drives and distributions. Besides ensuring that distributions were facilitated in a safe manner in light of the COVID-19 pandemic, many have reconsidered the way in which goods are distributed, seeking to honor the dignity and strengths of their neighbors who receive the items. In the Pioneer Valley Chapter, located in the Springfield, MA area, volunteers organized a socially-distanced Pop-Up Community Christmas Store where donated toys were sold at garage sale prices, and proceeds were used to hire local teens to help run the store. Rather than receiving charity, parents were given the opportunity to experience meaningful exchange by purchasing items at affordable prices.

“ You can start changing our world for the better daily, no matter how small the action.”

– Nelson Mandela

“Peace begins  
with a smile...”

– Mother Teresa

HOPE *worldwide*

# U.S. YOUTH PROGRAMS

**With a mission of inspiring and training young people for meaningful service, U.S. Youth Programs operate principally via three avenues: HOPE *worldwide* Scouts, the National Youth Advisory Council (NYAC) and Campus Clubs.**

NYAC trains an annual cohort of high school and college servant leaders through a combination of monthly online trainings, one-on-one mentoring, and a week-long Servant Leadership Academy. Each NYAC member designs and leads both a fundraiser and an ongoing relationship-focused Passion Program in their local community.

The 2020 cohort's fundraisers supported HOPE *worldwide*'s COVID-19 relief efforts with unprecedented success. When NYAC member Mitchell Nee decided to shave his head for the cause he had no idea how many great-hearted people around the globe would follow suit. Dozens sacrificed their manes, raising over \$55k for those impacted by the pandemic! Not long after, three members from Denver — Cambrie Vergiere, Cam Shelley and Kaeden Rasmussen — with the help of an incredible group of musically talented supporters, raised more than \$122k from generous donors with the inaugural

SINGHOPE virtual benefit concert.

NYAC Passion Programs, student-inspired and student-led, aim to develop local partnerships to address community needs with sustainable results. NYAC member Sam Ross from Kentucky decided to combine her love for service and music to create a program called ENCORE. ENCORE is an acronym that stands for Encouraging New Connections, Opportunities, and Resources for Everyone. ENCORE is a music tutoring program in which student volunteers from the Youth Performing Arts School (YPAS) are paired with a middle school 'buddy' involved in a music program in Jefferson County Public Schools. The YPAS student provides free, regular music lessons on a weekly or bi-weekly basis. The YPAS student serves as a teacher, coach, and mentor to the middle school student

during some of the most critical years of their music development. The ultimate goal of the program is to serve kids who are otherwise unable to receive private lessons due to financial or other reasons, so many of the participating middle school students demonstrate need and are nominated by their respective music directors. ENCORE has served a total of 60 students across seven schools.

Young people are also having an impact on the national and world stage. This year three HOPE *worldwide* youth leaders were selected to present at the National Service-Learning Conference. NYAC members also presented to the United Nations Major Group for Children and Youth on World Humanitarian Day and the National Immigrant Integration Conference.

# COMMUNITY SERVICE BRIGADES

**The HOPE *worldwide* Community Service Brigades are volunteer teams that provide a wide range of healthcare and medical services, education, child development, social services, disaster relief, recovery and risk reduction, and community development and empowerment.**

Community-based service brigades build long-term partnerships with local churches to equip them with the tools needed to combat the effects of extreme poverty in the communities they serve. They conduct extended programs for orphans and vulnerable children. HOPE *worldwide* volunteers provide direct relief and recovery, and assist local HOPE *worldwide* chapters, member organizations, community agencies and church partners. Currently, brigades serve

in Honduras, Guatemala, Mexico, Puerto Rico, El Salvador and the Ivory Coast. Over the past 10 years, the Community Service Brigades have provided approximately 40,000 patient visits where they have received medical and dental care free of charge.

In 2020 Community Service Brigades were held in Honduras and Guatemala, and medicines were provided to Nicaragua, El Salvador, Venezuela and Jamaica to help local physicians and patients. Three thousand prescriptions, 150,000 vitamins and 1,100 patient visits aided thousands of families in the Americas.

*Over the past 10 years, the Community Service Brigades have provided approximately 40,000 patient visits where they have received medical and dental care free of charge throughout Central America. Serving in the same communities for 10 years has ensured a continuum of care for the CSB patients, who receive examinations and treatment that includes over-the-counter and prescription medicine as well as multivitamins and medications. Many of these patients, chronically sick and suffering with diabetes, hypertension, GERD and parasite infestation, formerly went without benefit of this desperately needed medicine because they could not afford it for themselves or their children.*

# GLOBAL DISASTER RESPONSE

**Global Disasters dominated the news in 2020. Floods, hurricanes, earthquakes, wildfires and volcanic eruptions destroyed cities and devastated populations. HOPE *worldwide* quickly mobilized volunteers to provide lifesaving service on several continents, responding to 10 major disasters in 2020.**

Collaborating with local volunteers and supporters, teams worked together to make a lasting impact.

**In North America alone, over 1,000 volunteers provided direct relief to over 3,000 families.**

At the global level, HOPE *worldwide* continues to coordinate with our global partners and relief organizations. We consult with the United Nations Economic and Social

Council (ECOSOC), the European Union (EU) and the World Health Organization (WHO), and are part of National Voluntary Organizations Active in Disaster (NVOAD) in the U.S.

Around the world HOPE *worldwide*'s Global Disaster Response program brings hope and change to vulnerable communities with disaster preparedness, emergency relief and community rebuilding. We deliver lifesaving services and equip communities to reduce their disaster risks. We also partner with other agencies and organizations to maximize impact, and mobilize volunteers.

In 2020, with COVID restrictions in place and in the wake of devastating earthquakes and floods, **HOPE *worldwide* traveled to**

**eight different sites and served 120,000 people** in disaster-affected communities across the globe by providing food, water, shelter, healthcare, clothing and psychosocial assistance. The breakdown of supplies and services is as follows:

- 140,000 lbs. of food
- 2,000 lbs. medical supplies
- 1,000 emergency shelters
- 500 hygiene kits
- 250 water filters
- 25 houses rebuilt/repared
- 1 Center of HOPE rebuilt
- 600 children received psychosocial support

# COVID-19 RELIEF EFFORTS

## RELIEF SENT THROUGH 252 CHURCH PARTNERS IN 78 COUNTRIES

### USA (SAN DIEGO, CA)

Volunteers hosted a food drive, brought in 1,240 pounds of food and served 1,033 meals to the local community

### USA (BOSTON, MA)

Volunteers raised funds and worked with several local food banks providing food for thousands in need

### UNITED KINGDOM

Volunteers provided emotional and logistical support to those experiencing homelessness

### MEXICO

Over 2,000 people were given food and supplies to help sustain them for two months

### EL SALVADOR

510 people were given food and supplies to help feed families for over a month

### HOPE *worldwide* created the COVID-19 relief fund in order to provide immediate help

with food and medical supplies for those negatively impacted by the worldwide pandemic. Since then, we've now received over \$2 million for our COVID-19 relief efforts. With your support, we've provided help through 252 church partners in 78 countries, helping to feed over 50,000 people in need. Funds have been sent to Bolivia, Honduras, El Salvador, Nepal, Bangladesh, Kenya, South Africa, Tanzania, India, Egypt, Mexico,

Ecuador, the Dominican Republic, the Philippines, Indonesia, Lebanon, Papua New Guinea and many others facing extreme food insecurity. We have also engaged our corporate partners to deliver meals, personal protective equipment (PPE) and medicine. Additionally, HOPE *worldwide* is mobilizing a team of trained mental health professionals who will provide much needed emotional support during these traumatic events. From all of us here at HOPE *worldwide*, thank you for your prayers and support during this unprecedented time.

### ZAMBIA

242 people were given food and personal hygiene supplies

## LEBANON

295 people were provided food and medicine

## NEPAL

60 families were given food and supplies to provide meals for three months

## CHINA (HONG KONG)

Volunteers served 600 elderly citizens and 100 families by distributing masks, hand sanitizer and bleach to their homes

## MALAYSIA

Local HOPEww staff delivered food and supplies to 200 families

## INDONESIA

HOPEww received over \$350K in corporate grants to distribute food, PPE, hand-washing units and education materials to families

## EGYPT

25 families received food and medicine

## BANGLADESH

40 families were provided enough food to eat for over a month

## SOUTH AFRICA

HOPEww, with our partner KFC (Yum! Foundation), provided food parcels for 6,700 families

**Whether you volunteer with one of our programs or give financially, you are a valuable member of our community. Your support is making a difference at home and across the globe.**

HOPE *worldwide*

# SOUTH AFRICA

Located at 22 sites in seven cities throughout South Africa, the **HOPE *worldwide* Early Childhood Development (ECD) programs** focus on care and education for orphans and vulnerable children, social services, and volunteer mobilization.

Research shows that 90% of a child's brain is fully developed by the age of five. This makes the need for early child development imperative, and we work with both parents and preschools to provide vulnerable children with the best possible start in life. With this goal in mind, we established a new HOPE *worldwide*

ECD network for preschools. **Over 25,000 children were served and supported.** We are registered as an accredited training organization by The Education, Training and Development Practices Sector Education and Training Authority of South Africa.

In South Africa, the need for family stability, child development education and nutritional support remains the primary focus in our efforts. Our programs have been able to form valuable partnerships to serve our people in need. Thanks to our cooperation with companies like Coca-Cola, Walmart and KFC, The

HWSA has expanded its work to 849 Early Childhood Development centers throughout the country, and they were **able to serve over 15,000 children with support, instruction, nutrition and safety.**

Parenting programs established support for parents, benefitting over 2,000 parents and children in positive home life instruction. **In 2020, approximately 32,292 children were assisted with nutritional support.**

“It is my deepest belief  
that only by giving our  
lives do we find life.”

– Cesar Chavez

“ *And if you spend yourselves  
on behalf of the hungry  
and satisfy the needs of the  
oppressed, then your light  
will rise in the darkness, and  
your night will become like  
the noonday.* ”

– Isaiah 58:10 (NIV)

# CAMBODIA

HOPE *worldwide*'s  
medical work in Cambodia  
has offered over

**2.2 million**

consultations at no charge  
for the poor, and helped  
train over

**5,000**

medical professionals  
since 1996

HOPE *worldwide* has established and managed medical facilities and clinics that provide excellent and compassionate medical care to those in need. The Sihanouk Hospital Center of HOPE (SHCH) in the capital city of Phnom Penh and the Sonja Kill Memorial Hospital (SKMH) in the southern city of Kampot are two centers where Cambodian citizens can receive high-quality, affordable medical care. Since 1996, HOPE *worldwide*'s medical work has offered over 2.2 million consultations to the poor and helped train over 5,000 medical professionals.

We provide much-needed health care regardless of economic status. We also provide meaningful training and experience to Cambodian medical professionals. As a result of HOPE *worldwide*'s efforts, mother and child neonatal health in Cambodia continues to improve. In fact, our well-respected hospital and medical centers in Phnom Penh now employ a nearly 100% Cambodian workforce – including all senior management – and the hospital is dedicated to continued research and training of Cambodian medical professionals.

HOPE *worldwide*

# LEBANON

**HOPE *worldwide* is actively loving people who are vulnerable and in need in Lebanon. Over the years we've partnered with the local community, creating sustainable programs that support the materially poor, people experiencing homeless and the growing needs of the community. Recently, our focus has shifted to a disaster response due to the explosion that occurred in Beirut.**

On August 4, 2020, at the height of the COVID-19 pandemic, a chemical warehouse explosion shook the city of Beirut, Lebanon. Killing nearly 200 people, injuring thousands, destroying buildings as far as 6

miles away and leaving many people homeless, the blast ravaged an already hurting city. Damaged as well was the meeting space for the Beirut Church of Christ.

HOPE *worldwide* immediately sprang into action. Volunteers and local citizens, led by local program leaders Moufid and Jessy Tohme, canvassed affected neighborhoods, assessing damage and distributing food supplies and clean drinking water. HOPE *worldwide* put out the call for support, and monetary aid came in from around the world to provide much-needed relief. From these efforts, the "Let's Rise Up and Build" campaign was launched

with plans to restore neighborhoods decimated by the blast. Volunteers assisted with home repairs, distributed food and provided meals to those closest to the explosion site.

Thanks to an outpouring of love from our supporters around the world and donations from our global partners, HOPE *worldwide* has been able to restore many buildings, including 50 houses and a local school that serves students from materially poor families. Today, by the grace of God, the rebuilding effort and the continued inspiration toward hope for the future in Lebanon continues.

**HOPE** *worldwide*

# PROCUREMENT

The Procurement Department of **HOPE *worldwide*** partners with other non-profit organizations and corporations to provide in-kind donations for medical facilities and disaster relief. Procurement has provided annual support in Cambodia for the Sihanouk Hospital Center of HOPE (SHCH) in Phnom Penh and Sonja Kill Memorial Hospital in Kampot since they opened. Procurement also funds the Community Service Brigades in Tijuana, Mexico and throughout Central America. The primary focus is funding healthcare and medical services,

disaster relief, recovery and risk reduction. Most importantly, Procurement works to build a gifts-in-kind (GIK) program to benefit men, women and children worldwide living in extreme poverty and in dire need of medical services.

Since the inception of the program in August 1996, tens of thousands of people have been direct beneficiaries of the medicine, medical supplies, nutritional supplements, hygiene products and foodstuffs provided by **HOPE *worldwide*** and its partners. Procurement has

worked closely with our key partners such as AmeriCares, Direct Relief International, Heart to Heart, Blessings International, Feed the Children and Wine to Water. Through these generous partners, **HOPE *worldwide***'s Global Procurement Department has secured over \$11 million in in-kind contributions. These gifts have saved lives around the world. Notably, Procurement has secured over \$240,000,000 in medicine, medical supplies and equipment for hospitals in Cambodia and medical work worldwide since 1996.

# SUPPORT OUR MISSION

Below are a few simple ways you can help bring hope and change lives. ***Make your gift today!***

## Cash, Checks, and Credit Cards

Change lives today by giving online at [hopewww.org/donate](https://hopewww.org/donate). Or send your donation to 290 Interstate North Circle SE, Suite 130, Atlanta, GA 30339. Please make checks or money orders payable to "HOPE worldwide." HOPE worldwide, Ltd. is a registered 501(c)3 nonprofit organization. All donations are tax-deductible to the full extent allowable by law. Tax ID number (EIN): 04-3129839.

## Monthly Giving

Setting up a monthly gift can be quick and easy. Many donors are now giving monthly to HOPE worldwide and have found that it is the simplest way to have consistent impact for our neighbors in need. Set up your monthly gift today, and you'll become a member of our COMMUNITY OF HOPE! You'll receive special HOPE worldwide swag and regular impact updates from around the world. Learn more at [hopewww.org/community-of-hope](https://hopewww.org/community-of-hope).

## Matching Gifts

Double the impact of your gifts through a corporate matching gift campaign. Many companies will double your contributions to a charitable organization. Check with your employer today to see how you can multiply your impact! U.S. military, federal government and postal employees can contribute by selecting CFC number 10668. State employees may also select HOPE worldwide through the ICA State Employee Campaign.

## Stock Transfers

Give a gift of stock! Our team is standing by ready to help. What a great way to advance our mission and reduce your potential tax burden from appreciated stock. Please reach out today to see how easy it is to give this gift of hope.

## Cryptocurrency

Cryptocurrency is presenting a new opportunity for global philanthropy. Even as these investment markets fluctuate, investors are able to donate appreciated assets to benefit our cause and receive potential tax benefits. To fund HOPE worldwide's vital programs with excellence and proper oversight, all cryptocurrency donations are immediately converted to U.S. dollars and put to use according to donor designation. Cryptocurrency donations to HOPE worldwide can be made using our Bitpay account. For more information please contact us.

## Leave a Legacy of Hope

Leave a lasting legacy for future generations. Contact us and visit our Legacy Giving website at [hopewww.planmylegacy.org](https://hopewww.planmylegacy.org) to learn about ways to include HOPE worldwide in your will or trust.
